

Hinton SDC Brief - Wednesday, March 25

Good Morning SDC Family:

At the end of yesterday's managers meeting, we agreed that communication is critical during this difficult time. In response, it is my intention to send out regular updates with news that impacts our business, customers, community and staff.

Knowledge is power.
We must stay informed.
We must stay healthy.

The message below is courtesy of HR's Pam Johnson and Miko Gill. Please take a moment to read it and use our EAP service if needed. As a SDC employee, this is part of your benefit package.

Also remember that although Governor Evers *Safer at Home* order took effect at 8 a.m. this morning, it does not stop you from taking a walk to get fresh air. It's sunny and a little warmer today. That makes it a great day for a walk. Just remember the social distancing rules.

I'm here if you need anything.

Sincerely,

George Hinton
